Advisory Action Before the Filing of an Appeal Brief

Application No.	Applicant(s)		
10/702,181	SCHROOTEN ET AL.		
Examiner	Art Unit		
Robert Hodge	1746		

The MAILING DATE of this communication appears on the cover sheet with the correspondence address
THE REPLY FILED 30 December 2005 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.
1. The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:
a) The period for reply expires 3 months from the mailing date of the final rejection.
b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).
Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). NOTICE OF APPEAL
2. The Notice of Appeal was filed on A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).
AMENDMENTS
 The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because (a) They raise new issues that would require further consideration and/or search (see NOTE below); (b) They raise the issue of new matter (see NOTE below);
(c) They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
appeal, and/or (d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.
NOTE: (See 37 CFR 1.116 and 41.33(a)).
4. The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. Applicant's reply has overcome the following rejection(s):
6. Newly proposed or amended claim(s) would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
7. For purposes of appeal, the proposed amendment(s): a) will not be entered, or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended. The status of the claim(s) is (or will be) as follows: Claim(s) allowed: 1.
Claim(s) objected to: <u>8</u> . Claim(s) rejected: <u>5-7 and 9</u> .
Claim(s) withdrawn from consideration:
AFFIDAVIT OR OTHER EVIDENCE
8. The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will <u>not</u> be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).
9. The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing a good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).
10. The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached. REQUEST FOR RECONSIDERATION/OTHER
11. The request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Continuation Sheet.
12. Note the attached Information Disclosure Statement(s). (PTO/SB/08 or PTO-1449) Paper No(s).
13. Other: Bruce Bell
/ Sweet Sur
RRUCE F. BELL

BRUCE F. BELL PR!MARY EXAMINER GROUP 1746 Continuation of 11. does NOT place the application in condition for allowance because: Applicant's arguments filed 12/30/05 have been fully considered but they are not persuasive. Although the examiner agreed in a telephone interview that if applicants stated on the record that the Markush group found in section C of claim 5 could only have three elements, the Markush group would only be read as such. However upon further examination of the Voss reference support has been found for the rejection of claim 5. As previously discussed in the last office action the "Voss reference has defined hydrogen to be inert (paragraph [0032]) as well as having reducing properties (paragraph [0026])" and because of the disclosure in paragraph [0026] with hydrogen being present on both the anode and cathode sides in the presence of a conditioning potential, it reads on claim 5 as recited. Therefore because hydrogen is defined as being inert and reducing and is present on both the anode and cathode side, there is in fact an inert gas on the anode side and a hydrogen containing or reducing fluid on the cathode side, while a load is being supplied. Because of this clarification the previous rejection of claims 5-7 and 9 is still deemed to be proper and since no amendment to claims 5-7 and 9 has been made the application is not in a condition for allowance since the same reference still reads on the claims as previously stated in the last office aciton. The examiner acknowledges that claim 1 has been amended to include the limitations of claim 4 and therefore the rejection of claim 1 is withdrawn and because claims 2-4 are canceled all rejections and objections are now moot.
